Professional Summary

With over 4 years of experience in developing enterprise and client-server applications, I am proficient in Flutter, Java and Dart, with a strong background in full-stack development. Adept at working in fast-paced environments and committed to continuous learning, improvement and delivering high-quality solutions.

Industry Knowledge

- REST
- Data Management
- App Lifecycle / State management
- Cross-platform development
- API Integrations

Hobbies

Driving

Gaming

Music

Cooking

EXPERIENCE

Sirma Solutions

Fullstack Developer

May 2021 - Present; Remote

As a developer, I participated in various projects, was outsourced to other companies and took on roles in both Java backend and Flutter mobile development. I was part of multiple team projects, deploying and supporting different applications in Google Play and Apple App Store. Additionally, I have experience in end-to-end development and in supporting legacy code.

VAIOS

Fullstack Developer

Feb 2020 - May 2021; Varna, Bulgaria

Developed and supported multiple websites for various clients, creating designs and implementing mobile solutions for IoT projects such as parking lots and smart homes. These solutions, based on a framework developed in Dart and stylized with Flutter, feature innovative WEB/APP modules that provide an extremely flexible system, allowing for global monitoring and control.
